

11th Conference of ESES in Izmir **2025**

22-24 May

@Wyndham Grand Özdilek Izmir

How to Use the EUROCRINE® Platform and My EUROCRINE® Functionality for Research

Directors and Tutors: Laurent Brunaud, Thomas Clerici, Thomas J. Musholt

Course Specifications

Aim of the Course:

Enabling Participants to

- Add extra local clinic variables to the core variables
- Perform prospective observational studies
- Perform randomized controlled trials (with randomization inside the database)

Course Duration:

2 ½ hours with one break

Presenter: Laurent Brunaud

Faculty: Laurent Brunaud, Thomas Clerici, Thomas J. Musholt

The Prerequisites to Register for the Course Are:

- The clinic is a member of the EUROCRINE® Society
- The participant must have access to the “My EUROCRINE®” module in the Administration Tab on the EUROCRINE® platform (granted to the Dr. in Charge of the member clinic)
- The applicant has registered for the ESES conference (www.eses2025.org)
- The applicant has been entering data to the EUROCRINE® database at least from the beginning of 2024
- The applicant brings along their laptop

Think of bringing along a power plug converter to keep your laptop operational during the course (if needed).

Participants will be given a Certificate of Participation at the end of the course.
