

11<sup>th</sup> Conference of ESES in Izmir **2025**

22-24 May  
@Wyndham Grand Özdilek *Izmir*

### Live Surgery: See What I See

Transmission with Smart Glass System – Intraoperative Neuromonitoring, Fluorescence, Energy-Based Device and ioPTH Applications in Endocrine Surgery

**Directors and Tutors:** Özer Makay, Cristina Martinez Santos

**Team Members and Discussants:** Frederic Triponez, Sam van Slycke, Marcin Barczynski, Brooke Puttergill, Carlos Eduardo Costa De Almeida, Joaquin Gomez-Ramirez, Ali İlker Filiz

#### Course Description

Live transmission to the conference centre from two surgical theatres of thyroidectomy and parathyroidectomy cases will be carried out. The transmission system will allow the attendants to react interactively by using their phones, tablets or laptops. Experts in the room will guide the questions and lead the discussions based on the cases, techniques and gadgets to be used during surgery.
