

11th Conference of ESES in Izmir 2025

22-24 May
@Wyndham Grand Özdilek İzmir

Tips & Tricks During Robotic Applications in Endocrine Surgery Video-educational program on Endocrine Robotic Surgical Procedures

Aim: To give participants fundamentals for approaching Endocrine Surgical Procedures with the robotic platforms

Chairs: *Marco Raffaelli, Enrique Mercader Cidoncha*

- 14.30 **Course Presentation**
Why are we implementing the robotic approach for Endocrine Surgical Procedures?
Enrique Mercader Cidoncha
- 14.45 **Transaxillary robotic thyroidectomy: how I learned it and how I do it**
Gabriele Materazzi
- 15.00 **Robotic BABA and single-port areolar approach**
Jin Wook Yi
- 15.15 **Transoral Robotic Thyroidectomy**
Cem Dural
- 15.30 **Robotic lymph node dissection: feasible, safe and worthwhile?**
Yong Sang Lee
- 15.40 **A word of caution: who/how should approach robotic remote access thyroid surgery?**
Nancy Perrier
- 15.50 **Q&A**
- 16.00 **Break**
- 16.20 **Transperitoneal robotic adrenalectomy: standardization with different robotic platforms**
Marco Raffaelli
- 16.35 **Posterior retroperitoneoscopic robotic adrenalectomy: tips and tricks**
Eren Berber
- 16.50 **Robotic distal pancreatectomy: How I dot it**
Barbara Mullineris
- 17.05 **Q&A**
- 17.15 **Questionnaire - Debrief – Closing remarks**
